## Summary

- Currently a 4th-year student at Ton Duc Thang University, majoring in Computer Science.
- Skilled in utilizing modern programming languages and libraries for **Front-end** development, including **React JS**, **JavaScript (ES6)**, **HTML5**, **SASS**, **Tailwind CSS**, and **CSS3**.
- Foundational understanding of security measures and **Back-end** technologies such as **Node.js**, **Express.js**, **MongoDB**, and **MSSQL**.
- Familiar with implementing and integrating **RESTful APIs** to manage dynamic content delivery.
- Adept at designing and implementing **responsive designs** across various devices
- Proficient in source code version control by using **GIT**.
- Capable of self-study and effective time management

## Personal Projects

### GameRush - Digital Goods Buying Platform

(23/04/2024 - 10/07/2024)

**Members:** 1    **Role:** Full-stack Developer

**Technologies:** React JS, Tailwind CSS, SCSS, Node JS, Express JS, MongoDB, HTML 5

**Description:** This website is an online platform specializing in licensed software and digital products. The site emphasizes user-friendly navigation, secure payment methods, and comprehensive customer support.

#### **Responsibility:**

- Design and create a responsive/friendly User Interface by using React JS, Tailwind CSS and SCSS.
- Design and implement Database Schema by using MongoDB to manage data
- Design and implement REST API for services like: CRUD, filter and sort data
- Testing created API using Postman
- Integrate the Restful API by using ES6 to manipulate arrays and validate data on the client-side then send it to the API payload in the form of GET/POST/PUT/DELETE
- Implement secure authentication and authorization mechanisms by using JWT through API, localStorage and useContext.
- Optimize for search engines performance using custom hook useDebounce

## Education

**Ton Duc Thang University, HCM, VN**

(08/2020 - NOW)

Bachelor of Computer Science

**GPA:** 7.31 / 10

## Skills

HTML 5 / CSS 3 / JavaScript (ES6) / JQuery

React JS / Tailwind CSS / SASS / Bootstrap

Responsive Design / API Integration

MongoDB / MSSQL Sever

Express JS / Node JS / Strapi

REST API / Micro-service / OOP / MVC / Git
